## Criterion – VII

## 7. Innovations and Best Practices

7.1 Innovations introduced during this academic year which have created a positive impact on the functioning of the institution. Give details.

Mentoring of students was introduced during this academic year. The teachers of the various departments are entrusted with the responsibility of mentoring groups of students for their academic and other development. As a result, students teachers relationship has improved a lot the behaviour of the students has undergone remarkable change.

7.2 Provide the Action Taken Report (ATR) based on the plan of action decided upon at the Beginning of the year

1. Two new programme added.
2. Three inter-departmental seminars were held.
3. Most of the NAAC peer team recommendations were implemented.
4. Construction of Gymnasium and extension of Administrative building started.
5. Construction of new Arts building started.
6. Seven teachers were sent for Orientation and Refresher Courses.
7. Three community development programmes were implemented.
8. NAAC reaccreditation accomplished and the College was reaccredited with Grade- A (3.01 CGPA).

**7.3 Give two Best Practices of the institution** *(please see the format in the NAAC Self-study Manuals)*

1. Teachers Diary and Self Appraisal Report (annexure i)
2. Widening Access to Higher Education. (annexure ii)

***\*Provide the details in annexure (annexure need to be numbered as i, ii,iii)***

#### 7.4 Contribution to environmental awareness / protection

The environmental council took various programmes for environmental protection and awareness as stated in para 6.14.

7.5 Whether environmental audit was conducted? Yes

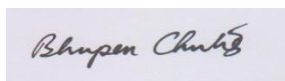

7.6 Any other relevant information the institution wishes to add. (for example SWOT Analysis)

--

**8. Plans of institution for next year**

1. To implement the recommendations of the NAAC reaccreditation Team.
2. To complete the ongoing construction of buildings and facilities.
3. To strive for the status of college with potential of excellence.

Best Practice: 1  
Teachers' Diary and Self-Appraisal Report

1. Goal

The goal of this practice is to ensure quality teaching-learning practices through maintenance of proper procedure and records. This practice aims to encourage the teachers to plan, implement, record and submit reports on academic and other activities for their professional benefit as well as for improvement of the academic atmosphere through cultivation of integrity. It is expected that daily maintenance of a diary of their professional activities for proper implementation and recording teaching-learning and other activities will lead to professional integrity of the teachers. It will also help in planning and monitoring the academic and other activities of the college. Moreover, the diary will enable the teachers to keep record of their activities for preparing their annual self-appraisal report at the end of the academic year.

2. The Context

It was felt that maintaining proper records of the academic activities is vital to the overall health of an educational institution. The onus for the same is heavy on the Heads of the Departments and the Vice Principal of the college who are supposed to be solely responsible for the teaching learning function of the college. However, it was felt that a better way to enhance efficient delivery and to record professional integrity and discipline among the teaching community was the need of the hour.

It was found initially that the practice demanded rigorous discipline on the part of the teachers, and it was felt that the conventional casual attitude would make it impracticable. However, rigorous counseling can alone improve the situation. Moreover, the need for maintaining proper records for preparing API scores made this practice more attractive.

3. The Practice

All the teachers are provided with a diary by the college which provides space for recording all the activities like classes, research, extra-curricular, administrative etc. The teachers are supposed to record all activities and place the same to the Head the Department who, in turn, puts his sign if the entries are found satisfactory. The departmental meetings review the achievements and performances of the faculty members on the basis of their daily diary entries and prepare their future course of action. At the end of the month a monthly report is prepared on the basis of the daily entries and submitted to the Principal duly signed by the HOD. The periodic meetings of the Academic Committee take note of these monthly reports. Proper scrutiny of the same is done by the IQAC in association with the Academic Committee and the concerned teachers are contacted for correction/suggestion if any. Moreover, suggestions are made to the Heads of the Departments to do the needful for completion of syllabus and conducting periodical tests etc. if the situation demands. The reports of these scrutinies are sent to the Research Committee, Extension Activities Cell and other bodies for suggestions and planning. At the end of the year, the teachers submit their annual self-appraisal report on the basis of their monthly reports to the IQAC. The IQAC, in consultation with the Academic Committee, makes necessary recommendations to the college authority.

#### 4. Evidence of Success

This practice has been successful in orienting the faculty members to keep their records of their professional activities in proper shape. It has also led to the growth of a sense of integrity and commitment to the demands of the profession. Moreover, it has made the job of the administration easy by providing all the necessary information regarding the performance of the teaching staff. It has become easier to keep track of the performance of the teachers so that proper planning in terms of professional development, delivery of quality education etc. is done. A few examples can be cited as evidence of success of this practice:

1. Classes are taken regularly. Coverage of course content is regularly monitored. A sense of responsibility has been developed among the teacher concerned, the Heads of the Departments, the Academic Committee and ultimately the Head of the Institution.
2. Research and publication work of the college has received due importance. Teachers are being encouraged to take up research projects. Several new projects have been sanctioned to the college.
3. Teachers are being encouraged to engage in co-curricular and extension activities.
4. Teachers in need of professional development are advised to go for Orientation and Refresher Courses.

#### 5. Problems Encountered and Resources Required

There are a few problems which have been encountered in proper implementation of this practice. They can be summarized as follows:

1. Sometimes teachers forget to record their activities in details due to laxity. This has often led to putting down records from memory and hence threatened the reliability of such records.
2. It has been a challenge to keep the process of recording and monitoring in proper track.
3. It has been a challenge to convince all the teachers to go for professional development programmes.

This Practice does not require much resource. The annual printing of the Teachers' Diary consists of the major cost.

### Best Practice: 2

#### Widening Access to Higher Education

##### 1. Goal

The aim of this practice is to widen access to higher education by providing equitable and equal opportunities to the students from diverse socio-economic, cultural and geographical background.

It has been seen that higher education still remains confined to a chosen few instead of being open for all who deserve or desire. Socio-economic and other factors such as geographical inaccessibility, lack of proper information etc. hinder the spread of higher education in remote and underdeveloped areas like Lakhimpur, Assam. The case is specifically delicate when it comes to women's education. Lakhimpur Girls' College, established to cater to the demands for providing higher education to the girl students of the North-eastern corner of Assam, intends to reach the most inaccessible areas and communities. And it has decided to take some pro-active planning and implementation in order to turn this intention into actual practice.

##### 2. The Context

It is really a challenge to bring students from various socio-economic and other backgrounds. Although situated in the heart of the small township of Lakhimpur, the college planned to attract students from far flung areas of the region, especially from the two underdeveloped districts, Lakhimpur and Dhemaji. Most of the rural communities find higher education rather out of reach, especially women's education. Inhabited mainly by scheduled tribes and Other Backward Communities, the area is equally dotted with sizable presence of religious minorities, tea garden communities, Scheduled Caste and other general communities. However, it is a daunting task to offer equal and equitable opportunity for higher education to the girl students from all these communities. Keeping this social reality in mind, the college has to take some pro-active measures to plan and implement equitable representation of students of all academic stages.

##### 3. The Practice

Lakhimpur Girls' College plans to widen access to higher education by taking some pro-active roles in offering equitable and equal opportunities to a wide range of communities from different socio-economic, religious and other background. As part of the same, the following activities are worth mentioning:

1. Holding Awareness camps in the far-flung rural areas in order to make its presence felt and to make the communities aware of the need for sending their daughters to the college for higher education.
2. Reservation of seats for students from particular communities over and above the ones reserved as per Assam Government rules. For example, there are hundred percent reservations for Scheduled Caste community in allocation of hostel seats. Four seats are kept specifically reserved in each course/in the hostel for students from the tea-garden community.
3. Strict observance of the State Government rules regarding reservation of seats.
4. Adequate number of hostel seats both within and outside the college campus for students from outside the town/rural students. Several privately run hostels are roped in for students of the college.
5. Facilities for government and private scholarships to students on merit as well as on economic ground are available in the college. Students from economically weak background are offered free-ships and scholarships from Students' Aid Fund as well as from Teachers' Welfare Fund. Minority students are offered scholarship from minority board, Government of Assam.
6. Adoption of a college uniform makes students from diverse communities feel at home forgetting any sort of difference. Although "Mekhela Chador" (the traditional dress worn by an Assamese Lady) is one form of uniform, a simple "Kurta-Churidar" is the second option which equalizes the status of the students from diverse backgrounds.

However, there are certain limitations under which the college has to implement this practice. Firstly, it cannot go out of the way to accommodate students from particular group in violation of the Government rules. Secondly, the college does not have enough economic resources to help all the meritorious and needy students.

#### 4. Evidence of Success

The efforts of the college have started showing results against the target and benchmarks. The following tables are indicative of the same:

## 1. Community Profile:

Category	As Per 2001 Census/Target	Enrolment in College				Remarks
		2013	2014	2015	2016	
ST	23.49%	18.66%	18.90%	18.92%	23.31	Remarkable Increase, about to reach target
SC	7.88%	7.33%	8.01%	9.18%	7.45%	Decreasing but, target is reachable
OBC	No Data	39.91%	40.01%	45.3%	45.67%	Remarkable Increase
Tea Tribes/ Christians	4.2%	6.02%	6.65%	6.4%	5.4%	Target crossed
Muslim	16.14%	9.98%	10.65%	11.01%	12.1%	Target yet to be reached

The above table shows that the college is striving to ensure equal and equitable representation of students from various communities of the district. The pro-active measures taken have started showing positive results.

2. At the same time, the following table indicates the pattern of enrolment in terms of rural/urban divide:

Category	2013	2014	2015	2016
Rural	71%	70%	72%	72%
Urban	29%	30%	28%	28%

The college has been able to reach the rural pockets to attract students for higher education.

3. Number of scholarships offered/number of students who were offered economic aid from Students' Aids Fund:

Financial Aid	2014	2015	2016
Freeships	6	7	7
Students' Aid Fund	57	25	29

#### 4. Number of Hostel Seats Provided:

	2013	2014	2015	2016
College Hostel	220	220	222	222
Private Hostel	60	65	60	60

#### 5. Problems Encountered and Resources Required

The college has faced some problems in implementing this practice. They are:

1. While striving to offer opportunities for education to socio-economically backward communities, the quality at the entry level has to be compromised. That is, students with lower marks are admitted in order to fill up seats reserved for a particular community.
2. The college has limited economic resources to offer scholarships on its own. Being located in a semi urban area, it has not been able to attract sufficient number of private donors to help economically poor students. On the other hand, the number of students seeking financial assistance is increasing day by day.
3. Being a provincialized college, it has limited options to start its own schemes bypassing the government regulations.
